Business Description

This Metal Fabricating Company in southeast Michigan has a long and stable history of providing a wide variety of custom metal fabricated assemblies using a variety of metals, in quantities from one to 3,000, to diverse customers throughout the U.S. in industries including electronics, aerospace, medical, automotive, food service, robotics, military, etc. The company operates in a nearly 20,000 square foot leased facility with room for additional capacity. Their processes include press operations, welding, shearing, painting, powder coating, stenciling, plus they have suppliers as needed do plating, anodizing, machining and silk screening on the products.

Non-Disclosure agreement (NDA) must be completed, signed prior to disclosure. Contact Steve Dykstra at (734) 927-6619 or email Steve@BBFBrokers.com for more details.
